Albert Einstein 1947

<b>Born</b>	March 14 1879
-------------	---------------

<b>Died</b>	April 18 1955 (aged 76)
-------------	-------------------------

- Imagination is more important than knowledge...
- The only thing that interferes with my learning is my education.
- I don't know, I don't care, and it doesn't make any difference!
- Peace cannot be kept by force; it can only be achieved by understanding
- Everyone should be respected as an individual, but no one idolized
- A clever person solves a problem. A wise person avoids it.
- All our science, measured against reality, is primitivae and childlike - and yet it is the most precious thing we have.
- I do not believe in the immortality of the individual, and I consider ethics to be an exclusively human concern without any superhuman authority behind it.
- Things should be made as simple as possible, but not any simpler.
- Anyone who has never made a mistake has never tried anything new.
- The problems that exist in the world today cannot be solved by the level of thinking that created them.
